

## LABOR TROUBLES.

Imported Poles and Germans Raise  
Shoal in Milwaukee-Sub-  
dued With Water.

The Socialists of Chicago Spread  
Broadcast a Circular Urging  
the Workmen to Arm.

The Hay View Iron-Works, the Second  
Largest in the Country, Threat-  
ened by a Mob.

## FREEDOM WITH A VENGEANCE.

MILWAUKEE, Wis., May 4.—The 1700 employees at the Chicago, Milwaukee & St. Paul Railway company's shop at West Milwaukee are out, and will not go back until they are granted eight hours' work at ten hours' pay. The walkout was produced by a crowd of other strikers who put in their appearance yesterday and made a formal demand upon the men to quit work. The committee entered the foundry and requested all hands to "stand in with the others for eight hours." The German and Polish laborers were rather willing to comply with these demands, but the molders had nothing to say. After the committee had remained inside for ten minutes without communication with the men, without, numbering 800, the latter became impatient and made a rush for the doors. Nearly all of them were armed with sticks and stones, and in the twinkling of an eye the entrance was crowded by the visitors, who poured into the foundry buildings. Once inside the shops the mob had everything its own way, though nothing was destroyed or broken. The German and Polish helpers in the foundry were the first to join the intruders by picking up their tools and coats and leaving ready to leave. The molders yielded passively, saying that they were hired to work and not to fight. From department to department the crowd went, and all in the shops were gathered up with comparative ease in less than half an hour. Disorder reigned everywhere, and the place seemed a disorganized camp. Intruders and workers were mixed up so that none could tell them apart and all were talking loudly. About 150 of Sheriff Pascher's deputies put in an appearance but could not drive the rioters away. The sheriff talked to them in German and asked them to depart from the premises quietly. A little squad flushed and excited by their success, the intimidators again collected in a body and started for down town, on the west side of the track, inducing the switchmen and trackmen to stop work. The crowd pounced on a gang of section hands further down the railroad, there was a moment's conversation and a hoarse shout of "exultation" went up as the laborers shouldered their spades, and the crowd joined the mob. From here the mob retraced its steps and went direct to the Bellanca works on the corner of Grove and Clinton streets. With a shout a half dozen of the Poles rushed upon the large door in the center and attempted to tear it open. They had hardly opened it six inches when a stream of water met them, the leaders fell in the face and sent them staggering backwards for three or four feet. The crowd in the rear pressed them forward and again the water met them. Brandishing clubs and shouting maledictions in the Polish language, the mob made a dash for the water main at the back of the street, forcing their way into the street, drenched to the skin. While they were thus engaged another door was opened and half a dozen of the soaked mob and sledge-hammers, and a forcible conflict seemed imminent, when at this juncture a squad of police arrived and the mob retreated with the stream of water playing on them. Shortly after the East side patrol wagon arrived on the scene and with these new arrivals the police department was successful in dispersing the mob.

Mr. Allen has decided to close his works until the existing excitement has subsided. Twelve hundred men will be thrown out of employment.

Gov. Rusk arrived in the city from Madison last night. He is in consultation with the city and county officials.

The brewers held a conference during the night and practically decided to grant the demands of the striking workmen. This decreases the peril somewhat, as it puts 2500 turbulent workmen back in their places, but there are 12,000 or more strikers besides brewerymen.

GOING TO HAY VIEW.  
Reports from Hay View announce the gathering of idle workmen to the number of seven or eight thousand. Two local militia companies and the Sheridan Guards and Lincoln Guards have been sent to Hay View by train, and a light-horse squadron sixty strong are about to depart in a very few minutes.

MILITIA IN CONTROL.  
H. A. M.—The different companies of the Fourth battalion are now assembled at their respective armories ready to move at a moment's notice. Gov. Rusk has ordered the Governor's Guards of Madison and the Watertown Guards of Watertown to this city. They are now on their way by special train. With these companies added to the local militia force upon the field quiet will soon be restored and preserved.

Upon the request of the mayor Gov. Rusk has issued an order to the following companies of the First regiment to report at Milwaukee at the earliest moment: Javerville two, Racine two, Monroe, Beloit, Watertown, Burlington, each one, and Company I of Madison.

A message just received from Bayview says that the strikers are increasing in numbers. They have swarmed into the rolling mills, but as yet no conflict has occurred. The Koscusko Guards are now on their way to Bayview. The arrival of the Governor's Guards from Madison and the Watertown Guards is momentarily expected.

RELATIVE VICTORY.  
Chicago, Ill., May 4.—The following dispatch was sent last night to John Swinton, New York: "We are scoring victory after victory for the eight-hour day. To-day the packing-houses of the union stock-yards yielded with many cases no reduction in wages. This affects 20,000 men, who are wild with joy at the grand victory they have gained. We hope to see other cities stand by Chicago."

Signed, GEORGE W. SCHILLING, Chairman of the Eight-Hour Committee of the Chicago Trades' Union.  
AN INCENDIARY CIRCULAR.  
Chicago, Ill., May 4.—An eye-witness of the struggle between the policemen and socialists yesterday states that the

number who are wounded is as high as twelve. It is not thought that any were killed outright, but the rapidly with which the wounded were carried away by their friends, and the secrecy maintained in regard to any connection with the affair, make the facts difficult to obtain. Joe Voestick is probably the only one mortally wounded. During the evening the following circular, printed in German, and with an English translation appended, was distributed broadcast in many sections of the city: "Revenge, workmen, to arms! Your masters sent out their bloodhounds, the police. They killed six of your brothers at McCormick's. They killed the poor wretches because they like you, had the courage to disobey the supreme will of the bosses. They killed them because they dared asked for a shortening of hours. They killed them to show you that free American citizens must be satisfied and contented with whatever your bosses condescend to allow you, or you get killed. You have for years endured the most abject humiliations. You have for years suffered unmeasurable humiliations. You have worked yourself to death. You have endured the pangs of want and hunger. Your children you have sacrificed to the factory lords. In short, you have been miserable slaves all these years. Why? To satisfy the insatiable greed, to fill the coffers of your lazy ruling masters. When you ask them now to lessen your burdens he sends his bloodhounds out to shoot you to death. If you are men, if you are the sons of your grandfathers who have shed their blood for you, then you will arise in your might and destroy these hideous monsters that seek to destroy you. To arms, to arms, we call you. Signed, "YOUR BROTHERS."

THEY GIVE IN.  
A monster meeting of packing-house laborers was held last night. All eight-hour committees returned reports. The result is learned to be as follows: Ten firms will hereafter allow ten hours' pay for eight hours' work; four will allow nine hours' pay for eight hours' work. It is expected that the remaining firms will soon accede to the demand.

MEN STILL OUT.  
The Michigan Central freight hands, 125 in number, struck last night for eight hours a day. They declare their intention of staying out until their demands are acceded to. The Baltimore & Ohio men petitioned the officials for an increase to \$1.75 a day, asking for an answer Friday. The Michigan Central men received a communication from the local freight agent in which he said the company was not prepared to give a definite answer to the demand for increased wages, but was willing to pay as much as other roads. The men decided to wait until Wednesday for an answer.

One hundred employees of the Union Steel company's works at Bridgeport demanded ten hours' pay for eight hours' work. The demand was refused. The North Side rolling mills shut down yesterday for an indefinite time, and about 1000 men are out of work. The superintendent says the mills will not start again until the labor troubles are at an end.

The mills of the Calumet Iron and Steel company at Cummings closed yesterday. It is stated that not enough non-union men could be found to run the mills.

GUARDED BY POLICE.  
The McCormick Reaper works opened as usual this morning, fully one-half of the men returning to work despite the intimidation and bloodshed of yesterday. A special force of police was on duty to protect the men but their services were not needed, as the anarchists and their followers of the day preceding, were on duty at the Central station and the entire force is held in reserve for any sudden call for their services.

A RIOT PREVENTED.  
A crowd of Bohemians, Poles and Germans began to assemble on the prairie in the southwestern portion of the city this morning, where the incendiary harangues which provoked the riot yesterday were uttered, but the police raided effectually and scattered them. Capt. Hathaway, with a squad of fifty police, put in an unexpected appearance at Goose Island at 9 o'clock this morning. A crowd of 200 idlers were found guarding the switches and a small engine-house. The police descended on the mob, captured nine and dispersed the remainder.

The switchmen on all the railroads are at work this morning. At 9 o'clock this morning 200 strikers proceeded to where a large force of men were engaged in laying tracks for the Chicago City Passenger railway and compelled them to stop work.

Having been driven from the prairie this morning, the idlers and strikers, incited by their leaders, proceeded south-east, three or four thousand strong, to the large glue factory near Thirty-fifth street with the intention of closing down the works. A strong force of police arrested nine ring-leaders and overawed the crowd, which dispersed.

AT CLEVELAND.  
CLEVELAND, Ohio, May 4.—The stone masons, through their demands, will be put on the eight hour plan. The men engaged on the Garfield monument quit work this morning and asked the contractor for eight hours and \$3.25 a day. He agreed to the proposition and the men will return to work.

The Ohio Iron and Steel company, one of the oldest establishments in the West, served their employees with a circular letter to-day setting forth that ten hours should constitute a day's labor, and that there would be no increase of wages. This was done in conformity with a law passed by the Ohio assembly, which provides that eight hours' shall constitute a day's work, unless the employers and employees otherwise contract.

WORKING EIGHT HOURS.  
PHILADELPHIA, Pa., May 4.—One hundred cabinet-makers and forty-six shoemakers went to work this morning on the new time schedule of eight hours per day, and in some cases an increase of wages ranging from 10 to 20 per cent. Three hundred men from sixteen shops remain out.

Food's Extract.  
A medicine confined to a certain number of diseases. It will cure Pain, Inflammation or Hemorrhage, external or internal.

BRECKENRIDGE.  
Court Notes—Musical Entertainment—Pleasant—Personal.

BRECKENRIDGE, Tex., May 3.—County court convened this morning and will remain in session the entire week. There are several important cases on the docket that will probably come up for trial this term.

District court will convene next week. It is thought that there will be a good deal of business to transact. The venue of the Biggs murder case has been changed

from Albany to this place and it is likely to come up for trial.

The musical entertainment at the hall Friday night was well attended. Miss E. Hendrick evidently understands music and knows how to impart instruction to her large class in music.

The picnic given by Prof. O'Neill's school Saturday was quite an enjoyable affair. There were a great army of children present who seemed to enjoy themselves finely.

THE GAZETTE has made many friends here recently by the full and complete reports given of the speeches of ex-President Jefferson Davis and Lieut.-Gen. John B. Gordon at the unveiling of the Hill statue and the laying of the corner-stone of the Confederate monument at Montgomery. These speeches, so historic and thrilling, were well worth a year's subscription to any newspaper.

There is to be a meeting of the citizens interested in the proposed Kansas & Arkansas Pass railroad at Cisco to-morrow. Several of our citizens will attend.

Mr. C. S. Morris circulated a petition in town last week asking the removal of the federal court from Graham to Cisco. The iron cages for the jail were received and placed in position last week. Sheriff Douglas went to Albany Friday after Sherrill and Thompson, two of our jail-birds who were sent there for safe-keeping.

Mr. E. W. Boyette is building an addition to his hotel, and will soon be prepared to accommodate all that may stay with him.

Judge J. L. Harle, a lawyer of considerable ability from Corsicana, has located here and gone into the practice of his profession.

A LITTLE SUFFERER  
Cleansed, Purified and Beautified by the Cuticura Remedies.

It affords an pleasure to give you this report of the cure of our little grandchild by your Cuticura Remedies. When six months old his left hand began to swell and had every appearance of a large boil. We noticed it, but all to no purpose. About five months after it became a running sore. Soon other sores formed. He then had two of them on each hand, and as his blood became more and more impure it took less time for them to break out. A sore came on the chin, beneath the under lip, which was very offensive. His head was one solid scab discharging a great deal. This was his condition at twenty-two months old, when I understood the cause of his mother having died when he was a little more than a year old of consumption (scrofula of course). He could walk a little, but could not get up if he fell down, and could not move when in bed, having no use of his hands. I immediately commenced with the Cuticura Remedies, using the Cuticura and Cuticura Soap freely, and when he had taken one bottle of the Cuticura Resolvent, his head was completely cured, and he was improved in every way. We were very much encouraged, and continued the use of the Cuticura Remedies, a boy matter forming in each one of these five days once just before healing which would finally grow loose and were taken out; then they would heal rapidly. One of these ugly bone formations I preserved. After taking a dozen and a half bottles he was completely cured, and is now, at the age of six years, a strong and healthy child. The scars on his hands must always remain; his hands are strong, though he cannot use them as he would be able to use them. All that physicians did for him did him no good. All who saw the child before using the Cuticura Remedies and see the child now consider it a wonderful cure. If the above facts are of any use to you, you are at liberty to use them. Mrs. E. S. DRIGGS, May 1, 1885. 612 E. C. St., Bloomington, Ill.

The child was really in a worse condition than he appeared to be. His grandmother, who, being with him every day, became accustomed to the disease. Cuticura Remedies are sold everywhere. Cuticura, the great Skin Cure, 50c; Cuticura Soap, an exquisite Skin Beautifier, 25c; Cuticura Resolvent, the new Blood Purifier, \$1.00. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston.

ITCHING, scaly, pimply and oily skin beset by Cuticura Soap. BACK ACHES, WEAKNESS, urinary troubles, indigestion, and other ailments speedily cured by this new, original, elegant and infallible remedy for pain and inflammation, the Cuticura Anti-Pain-Palmer. At drugists, 25c.

**RELIEF!**  
FORTY YEARS A SUFFERER FROM  
**CATARRH.**  
Wonderful to Relate!  
"FOR FORTY YEARS I have been a victim to CATARRH—three-fourths of the time a sufferer from EXCORIATING PAINS ACROSS MY FOREHEAD AND MY NOSTRILS. The discharges were so offensive that I hesitate to mention it, except for the good it may do some other sufferer. I have spent a young fortune from my earnings during my forty years of suffering to obtain relief from the doctors. I have tried patent medicines—every one I could learn of—from the four corners of the earth, with no relief. And at LAST (37 years of age) I have met with a remedy that has cured me entirely—made me a new man. I weighed 125 pounds and now weigh 145. I used thirteen bottles of the medicine, and the only regret I have is that being in the humble walks of life I may not have influence to prevail on all catarrh sufferers to use what has cured me."  
HENRY CHEVES.  
No. 297 Second St., Macon, Ga.
